## PROJECTS

**Project:-1 Hydria**
The Project demonstrates my ability to take a concept through full-stack delivery from UI design and front-end logic to deployment, optimization, and monitoring, producing a production-ready web application. Implemented [**HTML, CSS,JavaScript,Vercel**] incorporating best-practices such as modular component architecture.          [Click Here]

**Project:-2 My Portfolio**
Built a responsive personal portfolio website to showcase my skills and projects, focusing on clean UI, smooth navigation, and professional presentation.This portfolio also includes several other projects visit the website to explore more of my work.          [Click Here]
